Additional Features and Advantages of PCS-XG80

Additional Features and Advantages of PCS-XG80

1. Dual network interfaces: Easily switch between LAN and WAN connections.
2. Memory Stick™ recording: Video, audio and data can be recorded for later review on any PC or laptop.
3. BrightFace™ technology: Optimizes image quality even in less than ideal lighting conditions.
4. ITU-T H.239 support (video and presentation data): Presentation transferred at up to 30fps.
5. Video annotation: Either from main camera, AUX video input, or RGB PC (Wacom Bamboo pen tablet).
6. RF Remote: Longer battery life and no need to aim it at the system.
7. Translucent menu: Enables to see video image anytime while navigating through the menu.
8. Backward compatibility with SD systems: Seamless integration with existing equipment.
9. Built-in streaming function: For broadcasting to large audiences.
10. Multipoint software: Continuous Presence, Voice Activated Switching & Broadcast capability.
